DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 7, 11-20, drawn to a gene encoding a protein that catalyzes biosynthesis of piperitol or sesamin, a recombinant expression vector, transformant and methods of producing piperitol or sesamin, producing a transformant containing an enhanced amount of lignin or reduced amount of lignin.

Group II, claim(s) 6, and 8-9, drawn to a protein.

Group III, claim 10, drawn to an antibody.

Group IV, claim 21, drawn to a gene detecting device.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature linking the inventions appear to be a piperitol or sesamin, however, this feature is not special because it does not constitute an advancement over the prior art. Ozaki et al (US Patent 5209826) teach processes for isolating sesamin from episesamin. With no special technical feature linking the inventions, the inventions are properly restricted and Applicant must choose ONE invention for examination.

In addition to the above restriction requirement, should Applicant elect Group I OR Group II, Applicants are further required to choose ONE amino acid sequence between SEQ ID NO:1 OR SEQ ID NO:64 OR SEQ ID NO:78, or ONE sequence encoding said amino acid sequence. Should Applicant elect Group I, the nucleic acid sequence corresponding to the selected amino acid sequence will also be searched ONE of SEQ ID NO:2 OR SEQ ID NO: 65 OR SEQ ID NO: 79. In order to satisfy the restriction requirement, Applicant must select one Group and one SEQ ID NO.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
